Dear Mark,

Mark, I am writing for one very simple reason: you made a believer out of me.

I am looking at your report that quantifies the last twelve months of savings on premiums for Comfort Engineering's group health insurance and I really like what I see. Without your program, we would have spent more than \$266,000 on group health insurance in the last year. We only spent about \$174,000. **You and your benefits administration associates saved us more than \$92,000!**

I am very happy that I accepted your recommendation and look forward to continuing to work with your company.

Thank you very much.

Sincerely,

Kirsten Spargo
